Author inspiring testimonies

Hello my brothers and sisters in the movement. In this video I would like to present some insights about the strategic priorities for our locality.

Authoring clear, inspiring and consistent stories is going to be important for us to communicate what we are about. Salvation history does not only take place throughout the Old and New Testaments of the Bible. Salvation history takes place in each one of us, it takes place through our own personal story.

Our own story as a congregation has been a story of sin and redemption, a story of grace overcoming evil. Most of us have stories that exemplify in a very beautiful way how God has been working in our lives. These stories give witness to the power of God that makes all things new.

Hence, we believe that we have a story to tell others. We experience the joy of living faith as a family and the enthusiasm of engaging together in a far-reaching mission. During the next few years we will be engaging our members to share their stories. Communication is going to be paramount.

To sum it all up, the strategy for our locality is to give witness of the power of God as we live our spirit of communion. We believe that God is doing something very beautiful in the Legion of Christ and the Regnum Christi movement. Just like with his disciples, despite our weakness and our brokenness, he renews us and brings us together with Mary, his mother. He sends us forth to a world filled with confusion, a world that does not know Christ, a world filled with despair. The Lord prayed for his disciples to be one "so that the world may believe". We too believe, that our spirit of communion will help the world believe in the power of the Spirit that brings us together in joy.

We invite you to be part of this new adventure. This broken world needs the story of a broken family that has been restored. It needs our story of salvation.
